

Leedum Ltd. specialise in the manufacture of leather piping to meet our customers' specifications.

We can accommodate most requirements by offering a choice of leathers and cores to create piping of the desired resilience and flexibility.

Leather

Leedum sources and supplies quality leather to meet most requirements. Alternatively, we can use hides supplied by our customers.

Core

We offer a range of hollow and solid cores in various materials produced to specification in our factory.

Flange

The piping flange can be supplied plain or notched to aid flexibility.

	Piping Core	Flange
